## BOOK REVIEW | 'The Pinocchio Brief' by Abi Silver (\*\*\*\*)

Hi guys, and happy Friday! Today I am really excited to be sharing a review with you of a book I read **aaaggeeess** ago, but since I was part of the blog tour only last week I thought this was the perfect time to share my review with you!

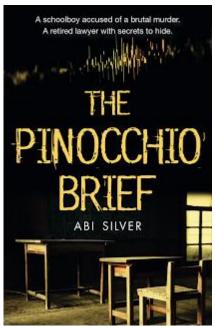

The Pinocchio Brief is a tense, gripping thriller following a murder investigation of a teacher, supposedly murdered by a fifteen-year-old student. Judith, an experienced and accomplished lawyer has come out of retirement, and she joins Constance, a solicitor new to the game, to try and fight Raymond's case. But this is no ordinary case, and boy is no ordinary boy. In a twisted story of secrets, lies and influential, powerful technology, The Pinocchio Brief explores a world where technology strives to solve the ultimate human problem - how do you know if someone is lying?

A 15-year-old schoolboy is accused of the brutal murder of one of his teachers.

His lawyers - the guarded veteran, Judith, and the energetic young solicitor, Constance - begin a desperate pursuit of the truth, revealing uncomfortable secrets about the teacher and the school.

But Judith has her own secrets which she risks exposing when it is announced that a new lie-detecting device, nicknamed Pinocchio, will be used during the trial. And is the accused, a troubled boy who loves challenges, trying to help them or not?

The Pinocchio Brief is a gripping courtroom thriller which confronts our assumptions about truth and our increasing reliance on technology.

I loved this book; I haven't read a thriller/murder mystery book in a while, and it was a very enjoyable read for me. I loved the character of Raymond and Judith - they were

so interesting to read about and intensely realistic. Obviously neither of them are perfect, but somehow this made them all the more likeable. I feel like their characters developed so much throughout the novel and this was really great to read.

The Pinocchio Brief is the kind of book that starts from a specific point, a simple narrative, and then spirals out of control into so many different directions. This is a reason I loved this book, it was an excitingly realistic portrayal of court room drama, and I was completely sucked in. The inclusion of a discussion about our interdependence of technology makes this a thoroughly topical and compelling read.

I loved now the narrative alternated between third person and Raymond - it created an amazing sense of suspense and was also so fascinating to get an insight into this highly sophisticated and intelligent mind. I found these sections to be particularly well-written, I felt like I got such a close understanding of Raymond.

The court scene was my favourite part of the book and I was on tenterhooks the whole way through! You can easily tell that Abi Silver is a lawyer - throughout the section the writing was so effortlessly accomplished and the dialogue flawless. I thought the ending of the book was fabulous and I loved the twist.
